Accounting data, 389
Accuracy, 169
Agricultural application, 237
Amalgamated forecasts, 437
Analysis, 249
Analysts, 425
Analytical portfolio models, 109
Annual earnings, 331
Annual financial forecasts, 437
ARIMA application, 351
ARIMA models, 23
Autocorrelation, 1

Bayesian forecasting, 137
Bivariate, 211
Box–Jenkins, 211, 405
Box–Jenkins models, 363
Business cycles, 119

Capital investment, 181
Commercial forecasting, 211
Comparative methods—time series, 137
Comparisons, 425
Component forecast, 181
Consumer surveys, 181
Corporate simulation models, 109
Cross correlations, 151
Cusum, 1

Data-simulation, 137

Earnings growth, 425
Economic forecasting, 51, 119
Economic models, 51
Empirical study, 405, 425
Error analysis, 37
Estimation—Kalman filter, 137
Evaluation, 237
Experts' forecasts, 325
Exponential smoothing, 1, 137

Forecasting, 169, 237, 351, 377, 389, 405, 425
Forecasting accuracy, 37
Forecasting comparisons, 37
Forecasting research in accounting and finance, 325
Future research issues, 325

Granger causality, 151
Growth cycles, 119

Hog prices, 237

Inference from ARIMA models, 77
Innovations, 151
Interventions, 225
Investment, 109

Judgemental forecasting, 169
Judgement vs. extrapolation, 437

Kalman filter, 59, 331
Klein's model I, 151

Leading indicators, 119
Linear programming, 109
Load forecasting, 59
Long term forecasting, 181

Management vs. analyst, 437
Matrix management, 109
Model building, 249
Model criticism, 77
Monitoring forecasts, 1
Multiple time series, 23
Multiple time-series analysis, 389
Multiple transfer functions, 151
Multivariate ARMA models, 377
Multivariate time-series modelling, 325
Municipal finance, 377

Naive models, 51
Nonparametric tests, 249
Non-stationary stochastic processes, 59

OECD, 37
On line parameter estimation, 59
Output forecasts, 51

Parsimonious models, 351
Persistent and transitory components, 331
Portfolio planning, 109
Power systems, 59
Predictive ability, 331, 363
Predictive accuracy, 351
Price forecasts, 51
Public finance, 377
Purchasing power adjusted earnings, 363

Quality control, 1

Random walk, 37
Rational expectations, 51
Reported quarterly earnings, 363
Review methodology, 405

Sales, 351
Simulation, 1
Simultaneous equations models, 151
Stationarity, 137
Stationarity tests, 249
Strategic planning, 109

Time series, 225, 249
Time-series accounting, 405
Time series model building, 23
Tracking signals, 1
Transfer function, 211
Trend curves, 181

Univariate time-series modelling, 325

Value Line, 425

Water use research, 181
Wiener filter, 59
